

## Exercise: Introduction to HTML and CSS

Problems for exercises and homework for the ["HTML and CSS" course @ SoftUni](https://judge.softuni.org/Contests/3330/Introduction-to-HTML-and-CSS). Submit your solutions in the SoftUni Judge system at <https://judge.softuni.org/Contests/3330/Introduction-to-HTML-and-CSS>.

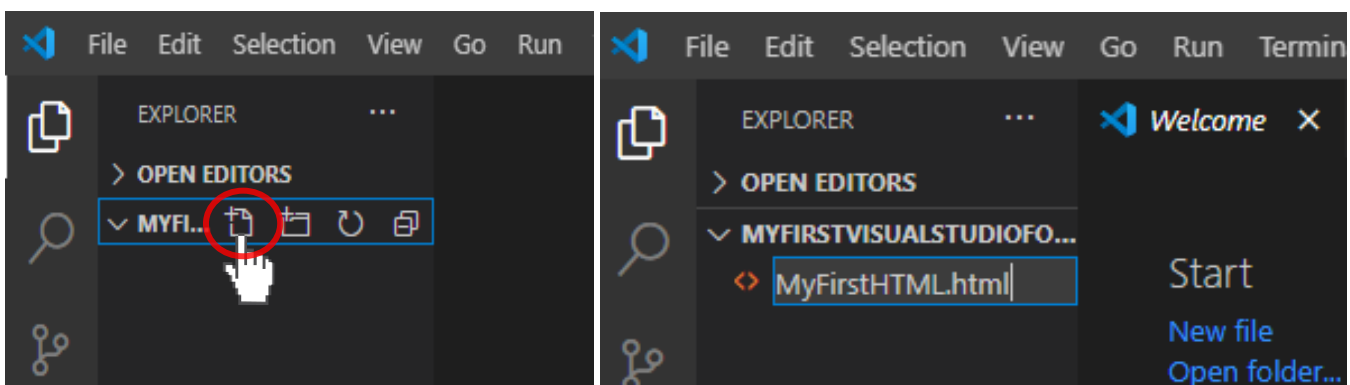

### Install and Configure Visual Studio Code for HTML

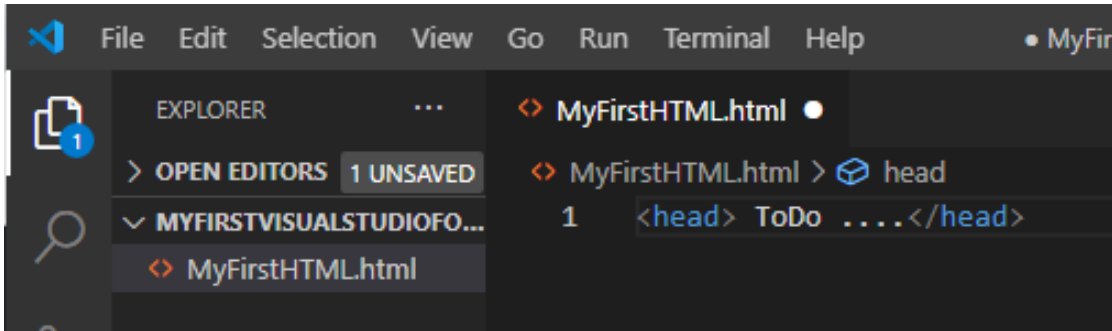

Install **VS Code** by using the guide in the resources of that lab.

1. **Start** with Visual Studio Code.
2. Create and select the **working folder** in which we will create our first HTML page.

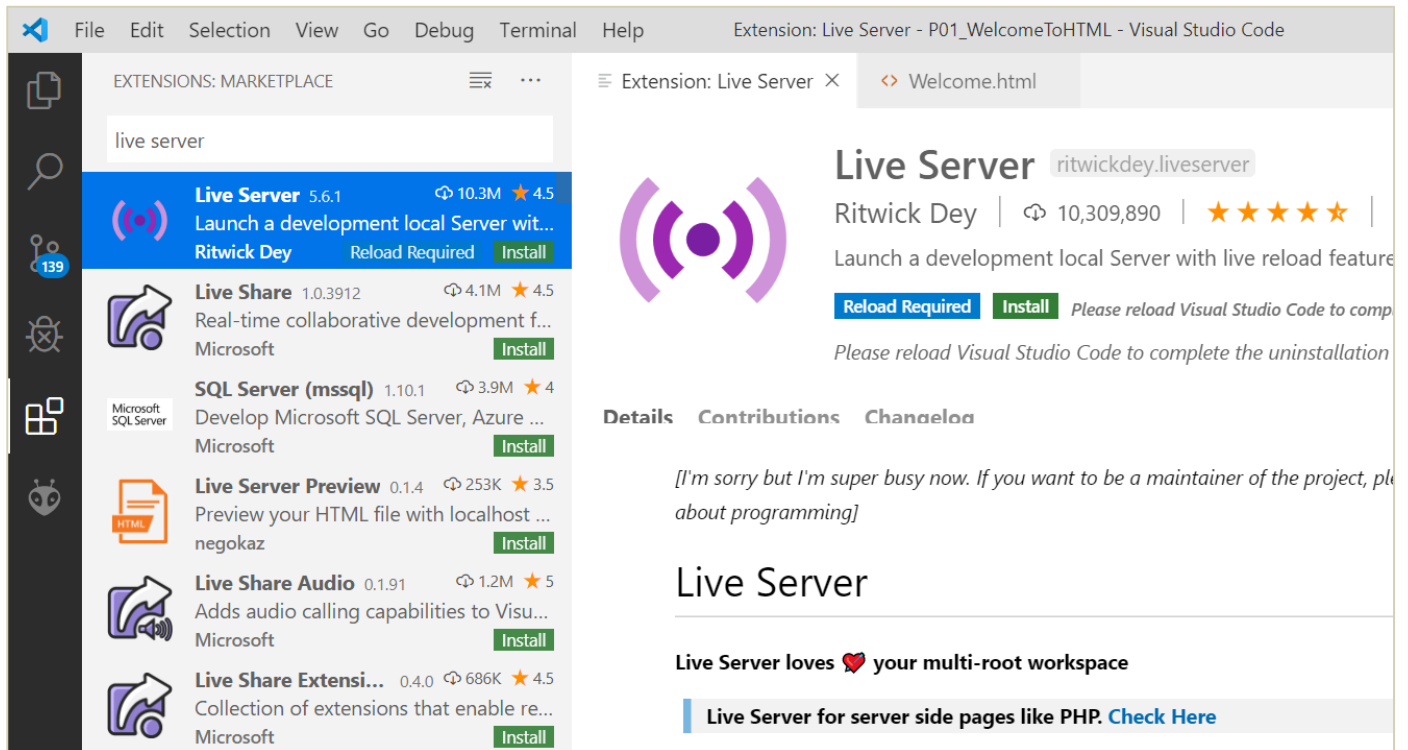

3. Create a new **HTML file**:

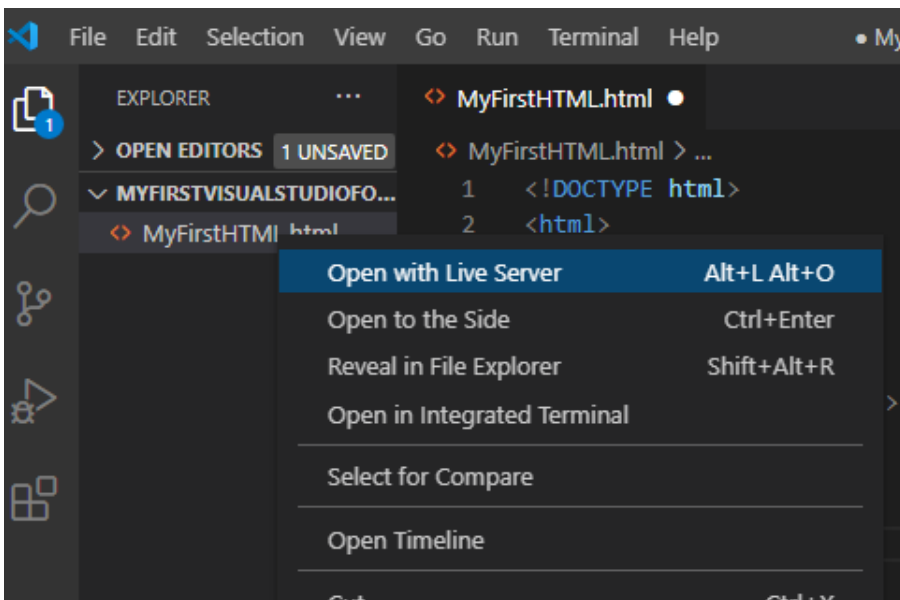

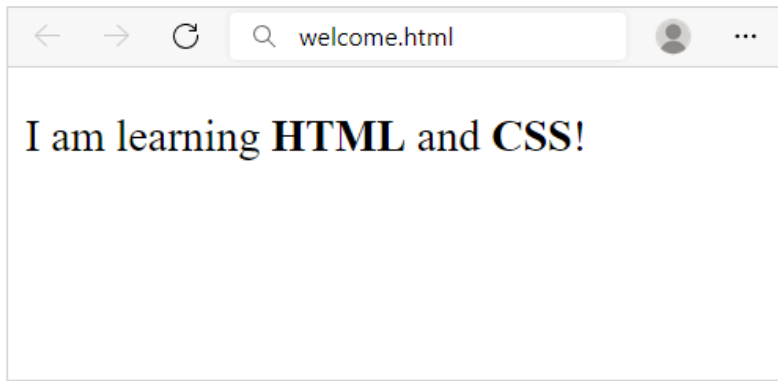

4. Install the extension “Live Server”:

5. To see the result of the written code in a browser, **right-click** on the project and select **[Open with Live Server]**.

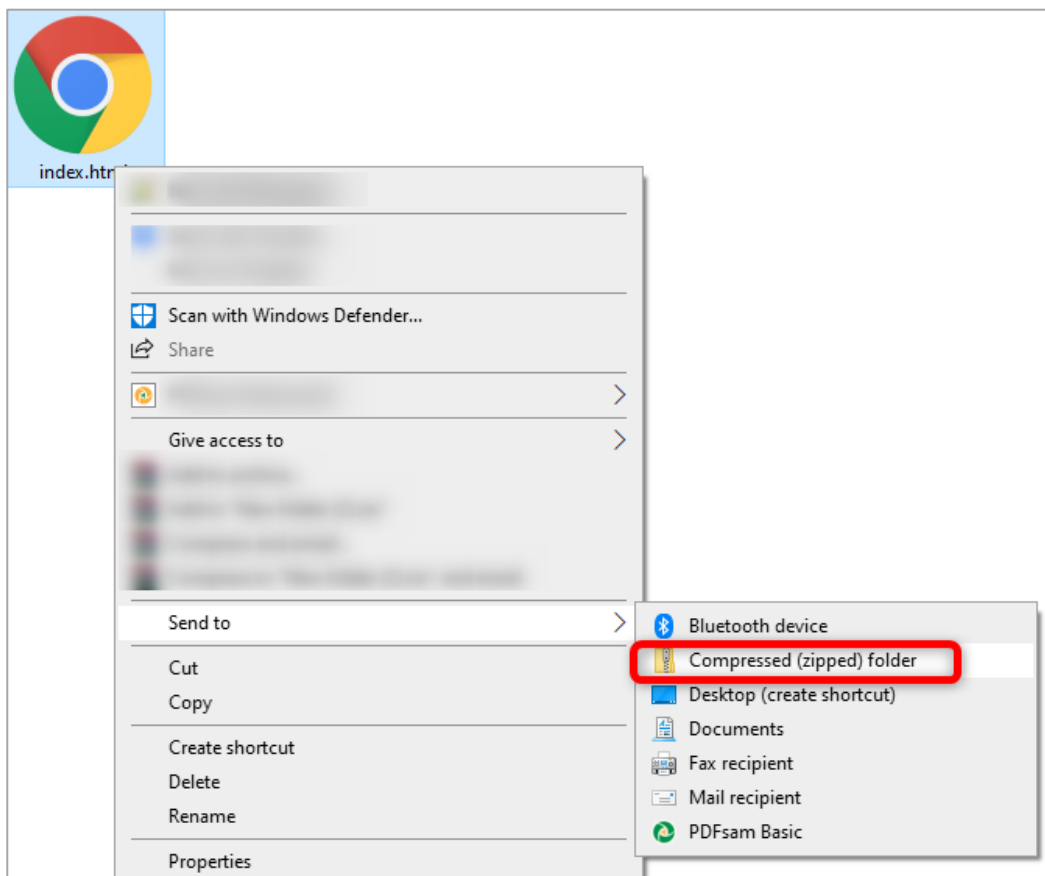

You will see the output from your HTML code in the Web browser:

## How to Send Solutions in Judge?

Make a **zip** archive of your solution by **right-click on the HTML file** > **[Send to]** > **[Compressed (zipped) file]**.

**Drag the zipped file** to judge over the button **[Select files]** and drop it. After that hit **[Submit]** button.
